

**Jürgen Partenheimer**

**Transformation**

**Häusler Contemporary Munich**

November 7, 2019 – January 10, 2020

Partenheimer's work is characterized by an extraordinary relationship between content and form, inviting association while simultaneously representing an extremely versatile and multifaceted act of imagination and movement of thought. His marks are confident and uncompromising, bold movements that leave an impressive notation. Thus, while avoiding narrative, the work oscillates between representation and abstraction in the timeless space of imagination.

The exhibition is accompanied by the publication  
„Jürgen Partenheimer Verwandlung/Transformation“  
with a text by Bruno Glatt.
